The risk management systems and internal control procedures related to Oriola's financial reporting aim to ensure a reasonable certainty of the reliability of the company's financial statements and financial reporting, as well as the company's compliance to legislation and generally approved accounting principles.

Financial reporting

The Board of Directors and the President and CEO have the overall responsibility for organising the internal control and risk management systems pertaining to financial reporting. The President and CEO, the members of the Oriola Management Team and the heads of the business units are responsible for the accounting and administration of the areas within their spheres of responsibility complying with legislation, the Group's operating principles, and the guidelines and instructions issued by Oriola's Board of Directors. The organising and leading of the financial reporting in the Group has been centralised under the subordination of the CFO.

Oriola Group follows the International Financial Reporting Standards (IFRS) approved for application within the European Union. Instructions and accountancy principles for financial reporting are collected in an accounting manual that is updated as soon as standards change, as well as in the financial department's instructions that are followed in all Group companies. Group accounting is responsible for following and keeping up to date with financial statement standards, upholding the principles concerning financial reporting and distributing information about these to the business units.

Measurement and follow-up

The performance of the Group is monitored in the Oriola Management Team with monthly reports as well as in the monthly operational reviews of the business segment. The financial situation of the Group is also monitored in the meetings of the Board of Directors. The Audit Committee and the Board of Directors examine the interim reports and financial statements before their publication. Monitoring of the monthly reports also ensures the effectiveness of internal supervision. Each business segment must ensure effective supervision of its own operations as part of Group-level internal supervision. The business segments and the Group Finance organisation are responsible for the evaluation of the processes covering financial reporting. The evaluations must contain balances and analyses, which are compared with budgets, assessments and various economic indicators.

Internal control

Internal control forms an essential part of the company's governance and management systems. It covers all of the Group's functions and organisational levels. The purpose of internal control is to ensure a sufficient certainty that the company will be able to carry out its strategy. Internal control is not a separate process but a procedural measure covering all Group-wide operating principles, guidelines and systems.

The purpose of Oriola's internal supervision system is to support the implementation of the Group strategy and to ensure that rules and regulations are observed. The company's internal supervision is based on a Group structure, in which the Group's operations are organised into Business Areas and Group functions. Group functions issue Group-level guidelines laying down the operational framework and the persons responsible for the process. The guidelines cover such areas as accounting, reporting, financing, investments and business principles.

The guidelines aim to ensure that all risks connected to the achievement of the company's objectives can be identified and managed. The control measures cover all Group levels and functions. All new instructions and guidelines are published on the company's internal website and staff members can provide feedback to the management and anonymously report any questionable activities through the company internet.

Risk management

The Board of Directors of Oriola approves the company's risk management policy in which the risk management operating model, principles, responsibilities and reporting are specified. The Board assesses the Company's long-term strategic risks and oversees the effectiveness of the risk management. The Board-appointed Audit Committee regularly reviews and monitors the implementation of the risk management policy in the Group and the risk management process.

Oriola has specified the company's risk management model, principles, organisation and process in the Group Risk Management Policy. The Group Risk Management Policy defines the enterprise risk management system, objectives, roles and responsibilities within Oriola in order to identify and manage risks related to execution of the Company's strategy and operations. The Group Risk Management Policy is the main risk management document within Oriola and must be followed by all Oriola business units, subsidiaries and entities. Additionally, the Group has a Code of Conduct policy, a Treasury policy and an Approval policy covering compliance and financial risks. Oriola's risks are classified as strategic, operational, financial and hazard risks. The company's auditor submits the auditor's report to the shareholders in connection with the annual financial statements, as required by law, and submits regular reports on its observations to the Board's Audit Committee.

The Board of Directors and the Audit Committee are responsible for monitoring the independence of the auditor. For this reason, the company has implemented a policy covering the provision of non-audit services by the elected auditors.

The Annual General Meeting of Oriola held on 15 March 2022 re-elected KPMG Oy Ab, a firm of authorised public accountants, as the company's auditor, with Kirsi Jantunen, Authorised Public Accountant, KHT, as the principal auditor.
